

Constance

CONSTANCE can hold her own with the guys.

The 17-year-old student has been playing multi-player computer game CounterStrike since she was in primary school.

She thinks that it's not common to find girls playing the game, but it's not so unusual as well.

"I get an adrenaline rush from playing computer games."

20 Things about Constance

I don't like maths and memorising formulae, so I studied theatre instead.

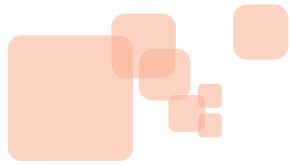

I have a big, cheerful smile that reflects my fun-loving personality.

My most recent happy memory was when I got into the top 20 for The New Paper New Face 2008.

I tend to get vulgar when angry.

What I really want is to kick out all dirty old men.

Light pink reminds me of the beauty of nature.

I always match the colour of my accessories to that of my clothes.

I won't travel alone because I wouldn't know how to get anywhere!

I'm a shopaholic.

I would club the night away rather than spend it alone at home.

Some days I don't finish my food and some days I do.

I love the Summer Berries Ice Cream from Haagen Dazs.

My comfort food is candy. I especially like the Wonka Nerds.

I want to visit France to see the Eiffel Tower.

I laugh a lot when I watch funny videos. Sometimes, I am part of them as well.

I fear losing my loved ones the most.

I would bungee jump just to feel the adrenaline rush.

I performed as a bumblebee when I was in kindergarten. I was so scared and nervous that I kept crying.

I was saddest when my dog died. He had been with me since kindergarten.

I wouldn't change anything about me. I'm happy the way I am.
